

September 22, 2017 - November 24, 2017

# ACT PREPARATION COURSE

AED 7,000

## Program Overview

Over 9 weeks, students will learn the key content and strategies for each ACT section.

**MATH**

Review math content from Pre-Algebra to Advanced Algebra and Geometry to Trigonometry. Lessons will focus on using problem solving techniques and building mental math skills.

**ENGLISH**

Review basic rules of English grammar and usage, sentence structure, and idea expression. Learn to write persuasive essays that analyze multiple perspectives.

**READING**

Learn how to identify main ideas and evidence in university-level texts.

**SCIENCE**

Learn how to answer questions based on scientific infographics (e.g. charts, tables, figures, graphs, etc.).
